## REMARKS

These remarks, and the above amendments, are responsive to the final Office action dated December 6, 2006 and the Examiner-Initiated Interview Summary dated May 9, 2008, and are submitted pursuant to discussions with Examiner Mark Hageman. In the December 6, 2006 Office action, the Examiner Joseph Rodriguez indicated that claims 5 and 6 would be allowable if rewritten in independent form including all of the limitations of the base claim (*i.e.* claim 1) and any intervening claims (*i.e.* claim 2). In responses dated April 6, 2007 and October 24, 2007, applicant amended claim 1 to incorporate all the elements of claims 2 and 5 into claim 1, amended claim 6 to correct the dependence of claim 6 from claim 5 to claim 1, and canceled all the remaining claims. However, applicant mistakenly canceled claims 3-4, and 7-22 of U.S. Patent No. 5,819,950, which all depended from claim 1 and would be allowable for at least the same reasons as claim 1. Applicant's counsel discussed this mistake with Examiner Hageman, who indicated that the mistake could be corrected with a supplemental amendment.

As such, applicants are filing the present amendment to ensure that the subject matter of claims 3-4 and 7-22 is included in the reissued patent. The changes made to claims 1, 2, and 5 necessitated further amendment to some of claims 3-4 and 7-22 in order to ensure proper antecedent basis. Other changes have been made to claims 3-4 and 7-22 to correct typographical errors, clarify the claim language, or change claim dependence, but all of the claims still depend from the same base claim, namely, claim 1.

As discussed in the responses dated April 6, 2007 and October 24, 2007, claim 1 recites the identical subject matter as was originally issued as claim 5 in U.S. Patent No.

5,819,950 (the '950 patent), the subject of this reissue application. Likewise, claim 6 recites the identical subject matter as was originally issued as claim 6 of the '950 patent. Claims 3-4 and 6-22 depend from claim 1, and are thus allowable for all the same reasons as claim 1.

Applicant reserves the right to pursue, in a continuation reissue application, any claims that are the same as, or are broader and/or narrower than, any claims that (a) originally issued in the '950 patent, or (b) were presented during prosecution of the present reissue application.

Applicant also submits herewith a Supplemental Reissue Oath/Declaration of James Paschal McCloskey, Under 37 CFR 1.175(b)(1), containing a proper statement of error in accordance with the requirements set forth in the Examiner-Initiated Interview Summary dated May 9, 2008.
